# Philosophies of Wockhardt Foundation

Service to man is service to God

We make a living by what we get, we make a life by what we give

A candle loses nothing when it is used to light another candle

Where every smile counts

Wish for others what you wish for yourself

Mankind is one family dependent on God, and the most beloved to God is the one most beneficial to it

The poor don't need pity, they need help

Poverty somewhere is a threat to prosperity elsewhere

When you help others, you help yourself the most, because God grants you peace and happiness

A life of giving is the only life worth living

What you give in charities, comes back to you multiplied many times over

# Wockhardt Foundation Programme Execution Policy

At Wockhardt Foundation, we are engaged in a number of initiatives to ensure that life wins. We offer holistic solutions that enhance the quality of life, stakeholder confidence and sustainability.

Our work encompasses primarily three sectors: Health, Child and Social. The first sector, 'Health', provides underprivileged population access to preventative and protective healthcare, effectively addressing the health concerns of the people

The second sector, 'Child', provides quality education to poor children through the implementation of e-learning and the provision of a desk cum school bag etc.

The third sector, 'Social', provides higher education facilities, skill advancement and development training among others.

## By addressing unmet needs

Wockhardt Foundation emulates its parent organisation's priority in addressing society's unmet needs and national building blocks (education, hygiene and healthcare) that enhance the quality of life. The Mobile 1000 programme addresses a long-standing rural primary healthcare gap; its Pronto BioToilet and Pronto Toilet initiatives address a large national sanitation gap; its E-Learning system addresses the need for adequate educational infrastructure; Shudhu addresses the critical need for providing safe potable water; Wockhardt Skills Development Institute (WSDI) focuses on curtailing the national deficit of skilled professionals..

## By exploring game changing solutions

Wockhardt Foundation is engaged in initiatives that promise positive disruption. The Pronto Bio-Toilet is a futuristic solution for a challenging national problem; the Mobile 1000 concept bypasses legacy hurdles; the E-Learning initiative has graduated educational delivery into the next generation.

## By maximising impact

Wockhardt Foundation's initiatives are directed at low gestation, easy implementation and maximum impact. This is achieved through hands-on project implementation. As a result, the Foundation is acknowledged as a national authority in specific niches, attracting partnerships and professionals.

### By leveraging best-in class technologies

Wockhardt Foundation believes that enduring social solutions are derived through the prudent use of core, delivery and monitoring technologies. Take for instance, our Mobile 1000 programme; all the vans can be tracked online on a real-time basis via a GPS device. Moreover, all Mobile 1000 data is generated using a MIS software and sent to the donors on a monthly basis. These reports are presented in various visual formats and help maintain the desired level of transparency that

Wockhardt Foundation hopes to achieve.

### By partnering with the best in the business

Wockhardt Foundation has not just selected to invest its own resources; it has also selected to engage corporate partners to widen social prosperity. Some prominent partner organisations comprise GAIL (India) Ltd, HPCL, Kotak Bank Group, Pernod Ricard, IOCL and The Hans Foundation, among others. This collaborative model has enhanced the Foundation's sustainability.

### By investing in professionalism

Wockhardt Foundation's activities are directly managed by Dr. Huzaifa Khorakiwala Executive Director of Wockhardt Limited, an MBA from Yale University. The Foundation works with some of the best professionals across the niches of its presence – medical doctors, care givers, educators and logistic support providers.

# SWACHH BHARAT ABHIYAN THE TOILET REVOLUTION

THE PRONTO TOILET PROGRAM WAS LAUNCHED WITH THE AIM OF FACILITATING  
OUR PRIME MINISTER'S MISSION 'SWACHH BHARAT ABHIYAN'  
TOTAL SANITATION CAMPAIGN

## NEED FOR ESTABLISHING SANITATION FACILITIES:

- ★ Only 31% of our country's population has access to proper sanitation facilities
- ★ 80% of children's solid excretion is left in the open or thrown into the garbage
- ★ Over 75% of our country's population has access to mobile phones but basic Sanitation is a remote dream
- ★ India is the country with the highest number of people practicing open defecation most of it occurs in rural areas where the prevalence is estimated at 65 percent of the population

- ★ Women having to defecate in the open, at odd hours, not only threaten their dignity, but their safety as well
  - ★ Children fall ill due to the germs spread from open defecation and cannot attend school
  - ★ Many girls drop out of school due to absence of sanitation facilities which hinder their education process
